

The figure consists of two vertically stacked line charts. The top chart is labeled 'Female' on the right side, and the bottom chart is labeled 'Male' on the right side. Both charts share a common x-axis labeled 'Age Band' at the bottom, with major ticks at 2016, 2018, 2020, 2022, and 2024. The y-axis for both charts ranges from 0 to 4, with major ticks at 0, 1, 2, 3, and 4. Each chart contains multiple data series represented by lines of different colors: orange, red, purple, and blue. The female chart shows a significant peak in the 2018 age band for one of the orange series, reaching a value above 4. The male chart shows a more stable trend, with a slight increase in the 2023 age band for the blue series.
